

SECTION 16476 - DISCONNECT SWITCHES AND CIRCUIT BREAKERS

A. SUMMARY

1. Individually mounted switches and circuit breakers used for the following:
 - a. EDIT BELOW TO SUIT PROJECT. Service disconnect switches.
 - b. Feeder and equipment disconnect switches.
 - c. Feeder branch-circuit protection.
 - d. Motor disconnect switches.

B. PRODUCTS

1. Disconnect Switches:
 - a. Enclosed fusible switch; NEMA KS 1, Type HD.
 - b. Enclosures: NEMA KS 1, Type 3R.
2. Enclosed Circuit Breakers:
 - a. Molded-Case Circuit Breakers: NEMA AB 1.
 - b. Enclosures: NEMA AB 1, Type 1.
 - c. Transient Voltage Surge Suppressors: IEEE C62.41; high exposure for use at each feeder overcurrent protective device.

C. FIELD QUALITY CONTROL

1. Testing Agency: Contractor employed.
2. Test Procedures: NETA ATS.
